## RADIANCE AGE-REVITALISING FACIAL ... OUR SIGNATURE FACIAL

Our luxurious, high-performance, age-revitalising and soothing signature facial supports repair and regeneration of tissues as it restores and transforms the skin to youthful vitality and rejuvenating radiance.

From beginning to end, the beautiful aromatic experience is memorable and lingering. Included in the facial is our signature, double-exfoliation treatment that immediately changes the appearance of your skin to a vibrant, smooth texture that smooths and plumps facial lines with dewy moisture and gives skin a lovely, healthy glow. A variation of the same treatment is applied to hands and forearms for skin renewal. The feet are also pampered with a rich moisturising herbal shea butter and quartz crystal palm stone.

At the finish of an ultra-relaxing, face, neck and shoulder massage indulgence, skin is soothed and energies are brought into balance with a gentle quartz crystal treatment giving you an undeniable feeling of well-being. The nutrient-rich, regenerating finishing facial products ideally give skin what it needs for transformation and youthful radiance. In a perfect finish to the treatment, our aromatic and energised Ormus Myst falls gently down over the upper body to uplift and elevate all of the senses to complete the ISUN facial experience –  
A memorable journey to well-being and rejuvenation!

## CRYSTAL ENERGY AGE-DEFYING FACIAL

A beautiful, serene balance of energy and skin is achieved in this luxury, aromatic facial treatment. Crystal massage stones and wands used with gemstone and herb infused oils are integrated into the treatment to support stress relief and an overall feeling of well-being.

A series of 3 balancing facial masks serve to purify, calm, exfoliate and deeply moisturise skin. With each face mask application, your skin and senses are treated with an energy balancing massage beginning with garnet herb-infused oil and a red jasper stone used to massage your legs and feet, helping to ground your energy and calm your nervous system while a rhassoul clay, neem oil and essential oil facial mask is working to purify your skin and pores.

A second soothing and nourishing hydration mask with chlorella algae is applied, and while it is on your face, uplifting aromatic rose quartz and herb-infused oil with rose quartz massage stones glide over your shoulders, arms and hands and finally rest over your heart.

As the last honey and berry moisturising and exfoliating mask sheds the outer layer of dead skin cells and debris for a renewed complexion, so does a face, neck and décolleté massage with an amethyst and herb-infused oil using amethyst massage stones, help to shed the last traces of unrest from the mind. In the final stage of pure relaxation for both face and psyche, you are gently treated with a 12 point facial marma massage using crystal wands that help to bring the ultimate feeling of restful peace.

Your facial is complete with an application of a series of ultimate skin-regenerating, finishing products that give your skin an undeniable renewed look of rejuvenation and a stunning glow of radiance.
