Alchemy happens when radiantly
alive ingredients are carefully
combined by hand, and with
loving care transformed to exquisite
skin-awakening products.

AGE-DEFYING HAND TREATMENT

Hands begin to dissolve into nirvana as they are finely polished to an ultra-smooth finish.

A delicious antioxidant Honey-Goji Berry hand and arm mask is lavishly applied over an enzyme softening gel made with honey and algae extracts. Hands are placed in warm mitts to help the enzymatic nutrients penetrate into the skin for optimal renewal.

After gently removing the mask, the hands and arms receive a luxurious massage. As an optional finish to the treatment, the palms are treated with our signature touch of a rejuvenating Rose Quartz Crystal massage.

REJUVENATING FOOT TREATMENT

Begin the journey for your feet in an aromatic and cleansing foot bath with purifying herb infusions and essential oils.

After the soak, your feet and lower legs are softened and smoothed with an invigorating Salt Scrub. A foot mask of your choice either for moisturising, purifying or cooling & soothing benefits is applied and wrapped.

To finish, your feet and lower legs are massaged and treated with our signature touch of a Clear Quartz Crystal massage.

CUSTOM FACE AND BODY RITUALS

Treatments may be customised to meet the needs of your facility.

ISUN Skincare is distributed worldwide to leading spas, resorts, clinics, estheticians, therapists and select retail locations.

Professional use products are available. Contact us to learn more about opportunities and discover for yourself “The ISUN difference”.
